

Task 4 : Platform Setup (Deadline: Jan 24 11:59pm)

Install Kali Linux on a virtual machine (VMWare/VirtualBox).

Explore basic tools inside Kali (nmap, whois, netcat).

Watch a short documentary on cybersecurity (like “The Great Hack” or “CyberWar”).

Submission: embed screenshots of your Kali Linux setup in word file and push it as a pdf in Day 4 branch of WEEK 1 repo.
